CAT 2026 Overview

CAT 2026 Exam Pattern

The Exam Pattern for CAT 2026 is as follows :

Section	Number of Questions	Marks	Duration (min)
VARC	24	72	40
DILR	22	66	40
QA	22	66	40
Total	68	204	120

The Pattern for CAT 2026 is going to be **almost same as CAT 2025** with few minor changes. Each **correct answer gives you +3 marks**. And, **each incorrect response will incur -1 mark**.

Question Type: CAT consists of **Objective Type Questions (MCQs)** with multiple answer choices and **TITA** (Type in the Answer) questions where you enter the answer directly without options, and there is **no negative marking for TITA questions**.

PREVIOUS YEAR PAPERS

Practising past year exams is one of the finest techniques to prepare for any entrance exam. These papers give us a comprehensive picture of the exam pattern, question categories, and difficulty level. We can concentrate on high-weightage areas by identifying the most commonly tested topics by solving them. They also help us build better time management abilities, since we get used to solving questions under real test settings. More importantly, prior year papers increase our confidence by giving us a realistic notion of where we stand and what areas require work. We can anticipate potential question patterns by analyzing historical trends, which gives us an advantage in preparation.

KATexpert provides previous year papers for CAT, XAT, CMAT, SNAP, NMAT, SRCC GBO, and CUET PG, making it easy for students to practice with actual exam-level questions. The papers can be taken as full-length mocks to mimic the actual test experience or in subsection format for focused practice. For individuals who prefer offline revision, KATexpert also permits downloading these papers in PDF format. The real exam interface ensures that we have a hands-on experience before the actual examination, enabling us fine-tune our strategy and improve our performance. If we want to increase our preparation and maximize our grades, solving prior year papers is a necessary!

OMETS

OTHER MANAGEMENT ENTRANCE TESTS

OMETs (Other Management admission Tests) such as XAT, NMAT, SNAP, CMAT, SRCC GBO, and MAH-CET provide access to numerous prestigious B-schools in India, while CAT is the most often used MBA admission test. These examinations provide varied opportunities, allowing us to apply to multiple universities and boost our chances of getting admission into a quality MBA program.

Each OMET has a distinct exam pattern and demands a different strategy.

For example, XAT focuses more on decision-making and verbal skills, NMAT assesses speed and accuracy, while SNAP and CMAT need a balanced approach throughout portions. By preparing for multiple exams, we diversify our options, reduce dependency on a single test, and enhance our adaptability to different question styles.

At KATexpert we provide 10 NMAT, 20 SNAP, 12 CMAT, 10 XAT, 25 CET and 10 SRCC full-length mocks, sectional tests, and practice sets. Our mocks are designed to accurately replicate the actual tests, helping us improve speed, accuracy, and test-taking strategy. Focused practice is made possible by sectional tests, which guarantee that we improve our weak areas prior to the test. We also provide prior year papers for your practice.

It's wise to prepare for OMETs in addition to CAT if you want to get into a prestigious B-school. Greater opportunities increase the likelihood of achievement!
